The Physical Education Staff of The Villages High School would like to welcome all students to our school and to our physical education program. Physical Education is the science and study of the human body and its movement. This course will provide the student with a survey of weight training, agility and endurance running. Our philosophy in physical education is to provide a variety of conditioning formats and the tools necessary for maintaining lifetime fitness.

COURSE DESCRIPTION: We are going to have great semester learning about the significance of fitness to our health. Each student will not only have the opportunity to set individual fitness goals, they will also have the opportunity to try to achieve these goals.
